

Turn Reflection Into Trusted Support

Klear Karma

Mirror-guided trust for seekers and verified practitioners.

Klear Karma is the Mirror-guided trust layer that turns seeker reflection into tokenized intent, practitioner handoff, and protocol-reviewed spiritual wellness commerce.

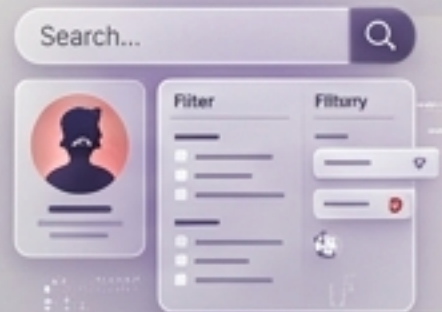

The Friction of Category-First Browsing

Wellness marketplaces force **categorization** before comprehension, breaking trust at the moment of highest vulnerability.

The Seeker's Vulnerability

The Flaw: Demanding price, time, and category upfront.

TIME_LOSS: 85% | CONVERSION_RATE: 1.5% | ABANDONMENT: HIGH

The Pain: Turning a vulnerable life transition into a generic exercise in filtering and guessing.

USER_QUIETLY: 92% | ENGAGEMENT_DEPTH: SHALLOW | DECISION_FATIGUE: CRITICAL

The Fear: Exposed privacy when sharing birth details or raw reflections on generic directories.

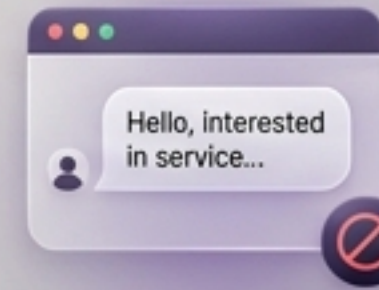

PRIVACY_SCORE: LOW | DATA_LEAKAGE_RISK: HIGH | TRUST_INDEX: -60%

The Practitioner's Friction

The Flaw: Optimizing for free signups and generic lead volume.

LEAD_QUALITY: POOR | SIGNUP_COST: LOW | RETENTION_RATE: 5%

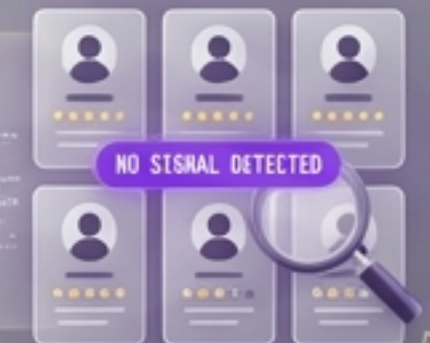

The Pain: Receiving cold inquiries devoid of the contextual depth required for high-relevance support.

CONTEXTUAL_DEPTH: ZERO | RESPONSE_RATE: 12% | MISMAATCHED_QUERIES: 75%

The Fear: Commodified profiles that make discerning true expertise impossible.

PROFILE_UNIQUENESS: 2% | EXPERTISE_SIGNAL: WEAK | MARKET_SATURATION: HIGH

From Category Browsing to Context-Driven Trust

We replace the noise of the directory with the clarity of the **Mirror**.

	Generic Directories	Klear Karma
Discovery Mechanism	Category-first browsing	Mirror-led structured reflection
Data Handling	Exposed / Default data sharing	Protocol-reviewed, consent-safe boundaries
Practitioner Leads	Cold, generic discovery traffic	High-context, matched intent
Value Signal (Primary Metric)	Free signups and vanity clicks	Paid token recharge (Paid Activation)

The Premium Seeker In Transition

Discerning, digitally fluent, and ready to invest in meaningful guidance over commodified spirituality.

Demographics

URBAN CENTERS: THAILAND AND INDIA.
AGES: 28-45.
DIGITAL FLUENCY: HIGH.

Aesthetic & Behavioral Affinity

VALUES DATA-BACKED RITUAL OF OURA
AND DISCIPLINE OF HEADSPACE,
WITHOUT THE SOFTNESS.

The Four Emotional Drivers

1

Relief

Seeking a safe space to unpack the
overwhelm of a life transition.

2

Discernment

Tired of generic profiles; demands
verified expertise.

3

Trust

Requires strict data boundaries and
a practitioner who truly listens.

4

Readiness to Act

Moving from confusion to a specific,
actionable next step.

The Ecosystem Blueprint

Engineering a sequential architecture: from abstract intent to a consent-safe practitioner handoff.

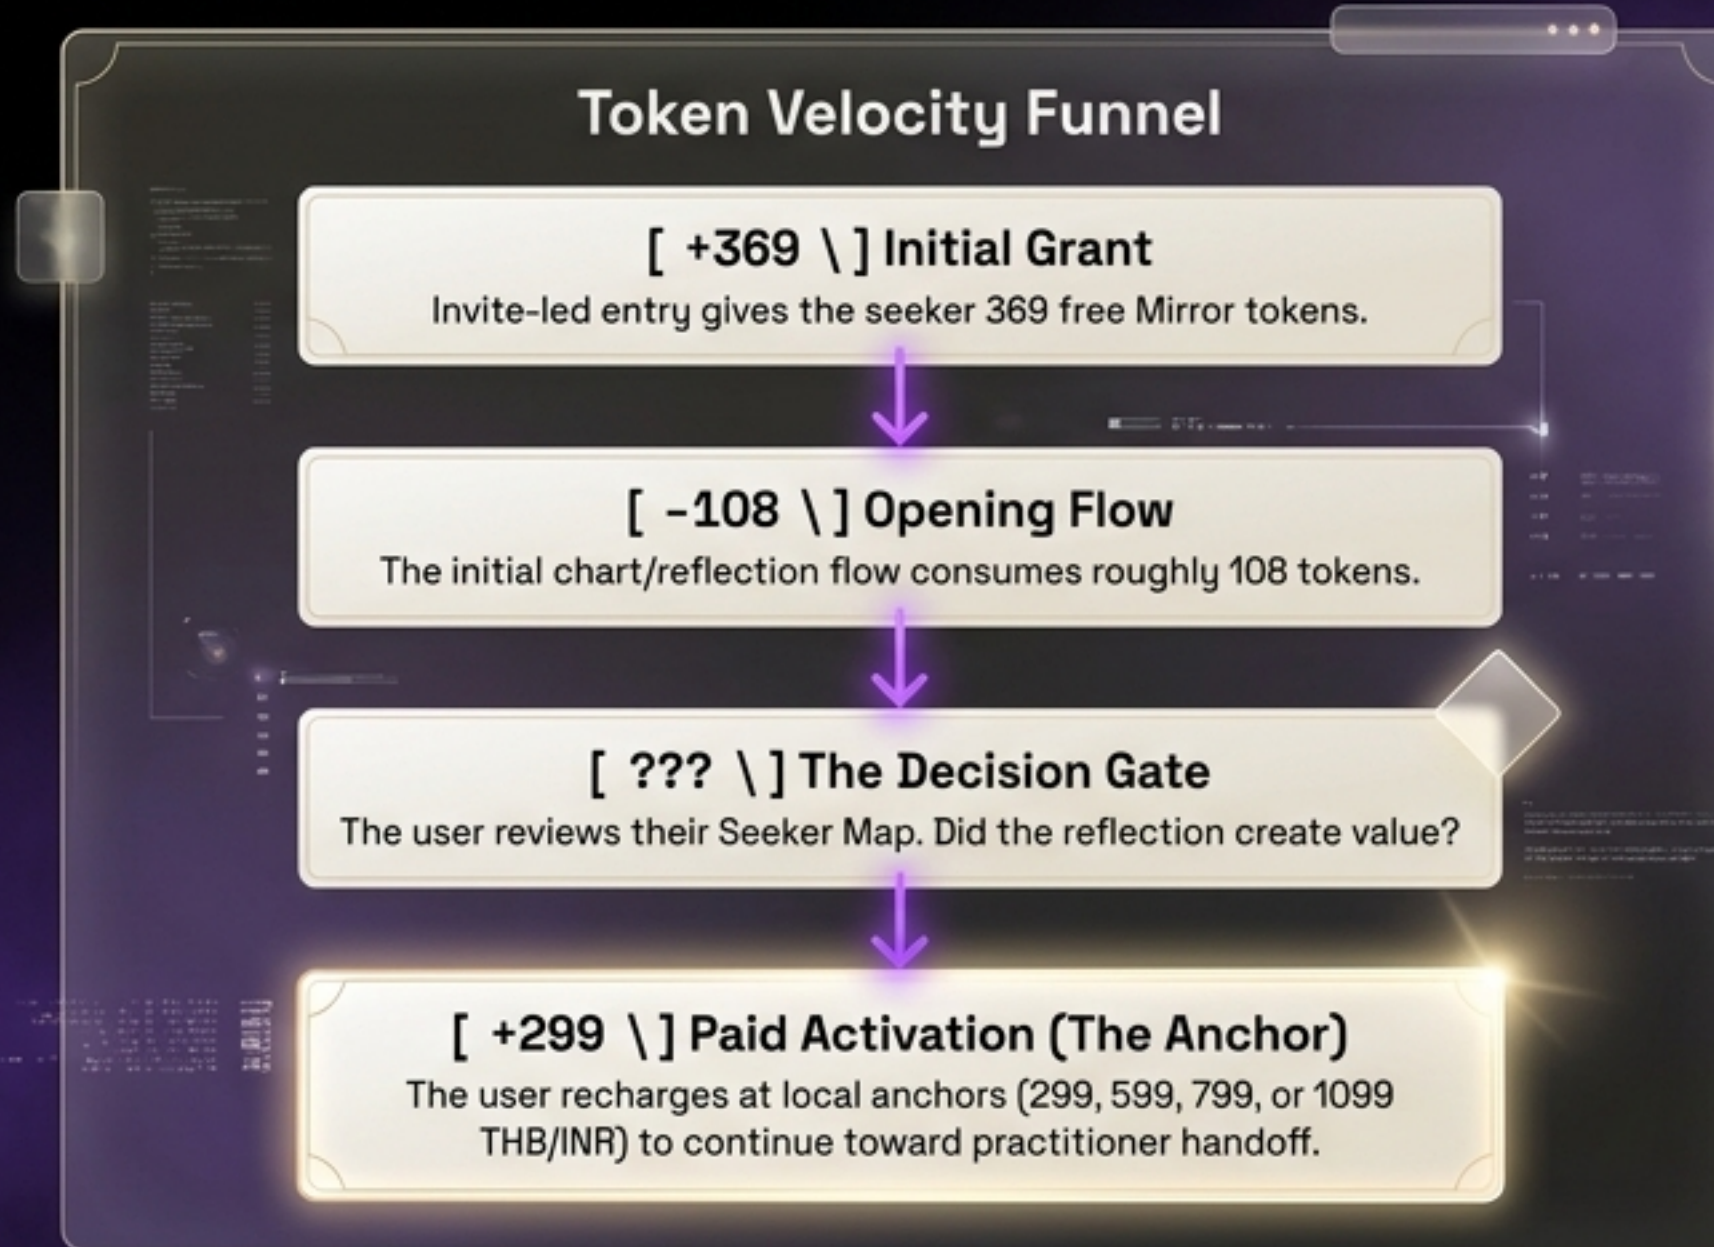

Validating the Wedge: Thailand and India

Establishing trust mechanics in high-permission markets before broad scaling

The Activation Engine

Reflection creates intent, and intent drives tokenized revenue. Trust = Liquidity.

Key Economic Guardrails

- Zero consultation commission in the MVP phase to prioritize ecosystem health.
- 10% revenue share applied strictly to protocol-reviewed marketplace product sales.

Proving Intent Through Paid Activation

We measure value through recharge and repeat utility, not vanity reach.

Strategic KPI Set

Primary Definition: A "Paid-Activated User" = Recharged at least 299 (THB/INR) within 90 days of signup.

[1,000]

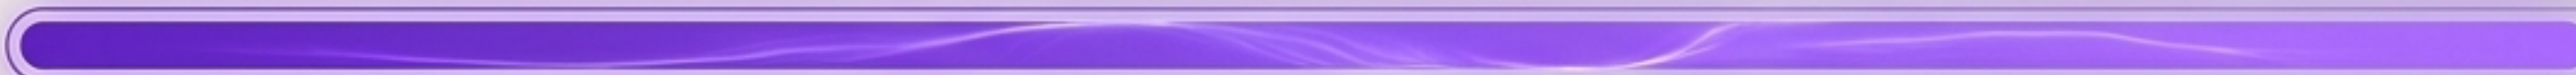

Target: Paid-Activated Users.

[200]

Target: Repeat Purchasers
(proving ongoing utility).

[50]

Target: Completed verified
healer consultations.

Investor Milestone: 600,000 to 700,000 THB Annual Recurring Revenue (ARR).

Secondary Protocol Signals

- [- Mirror-to-Recharge Conversion]
- [- AI-to-Human Handoff Rate]
- [- Practitioner Earnings Activation
(Payout threshold: 10k-15k tokens + KYC)]

The Reflective Steward

Spiritually literate, commercially clear, consent-first, and never mystical for its own sake.

The Voice

Tone: Grounded reflective strategist. Internal-first, premium, specific, field-aware, and calm under investor scrutiny.

Constraint: Zero promised outcomes, fate determinism, or clinical authority.

The Color System

#090711: Spatial depth, high-trust seriousness.

#221245: Vapor gradients, app panels.

#D8B35A: Token ledgers, consent seals.

#8B5CF6: Activation and progress states.

The Typography

Authoritative headers for maximum clarity.

Highly readable body copy optimized for interface comprehension.

Mechanical data, proving the investor-ready tech layer.

Reflect Before You Browse

Join the controlled beta and experience the mirror-guided trust layer.

Klear Karma starts with a simple operating belief: people should not have to browse a generic directory before they feel understood.

Seekers: Claim your 369 free tokens and map your context.

Practitioners: Apply for beta verification to receive high-context intent.

Partners: Review our beta activation metrics.
