

TURN REFLECTION INTO TRUSTED SUPPORT

Mirror-guided trust for seekers and verified practitioners

Klear Karma is the Mirror-guided trust layer that turns seeker reflection into **tokenized intent**, **practitioner handoff**, and protocol-reviewed spiritual wellness commerce.

The Fracture: Category-First Browsing Fails Both Sides

The Seeker's Anxiety

FORCED CATEGORIZATION

Marketplaces demand a category, price, and time before understanding the lived context.

PRIVACY RISKS

Seekers fear sharing vulnerable reflections or raw birth data with generic directory profiles.

UNSERIOUS CLAIMS

Existing spiritual apps overstate certainty, offering predictive fate rather than careful reflection.

The Practitioner's Burden

GENERIC LEADS

Practitioners receive low-intent volume without understanding the client's actual needs.

COMMODITIZATION

Quality and specific modalities are impossible to prove on standard directory cards.

The Lotus Intent Model

Mirror Creates Intent

Mirror asks one primary question at a time, summarizes context, and builds a consent-safe seeker map before any marketplace browsing.

Commerce Emerges

Protocol-reviewed, profile-scoped commerce activates only after trust is established.

Tokens Prove Utility

Measurable token spend replaces generic discovery traffic as the primary signal of intent.

Practitioners Fulfill

Verified practitioners receive only consent-approved context, delivering high-context support.

The Premium Seeker In Transition

Core Aspiration: Feel seen before paying for a session.

Relief

Escaping the anxiety of generic directories to find grounded, safe exploration.

Discernment

Willing to pay for premium quality, rejecting over-claimed guru certainty in favor of symbolic context.

Trust

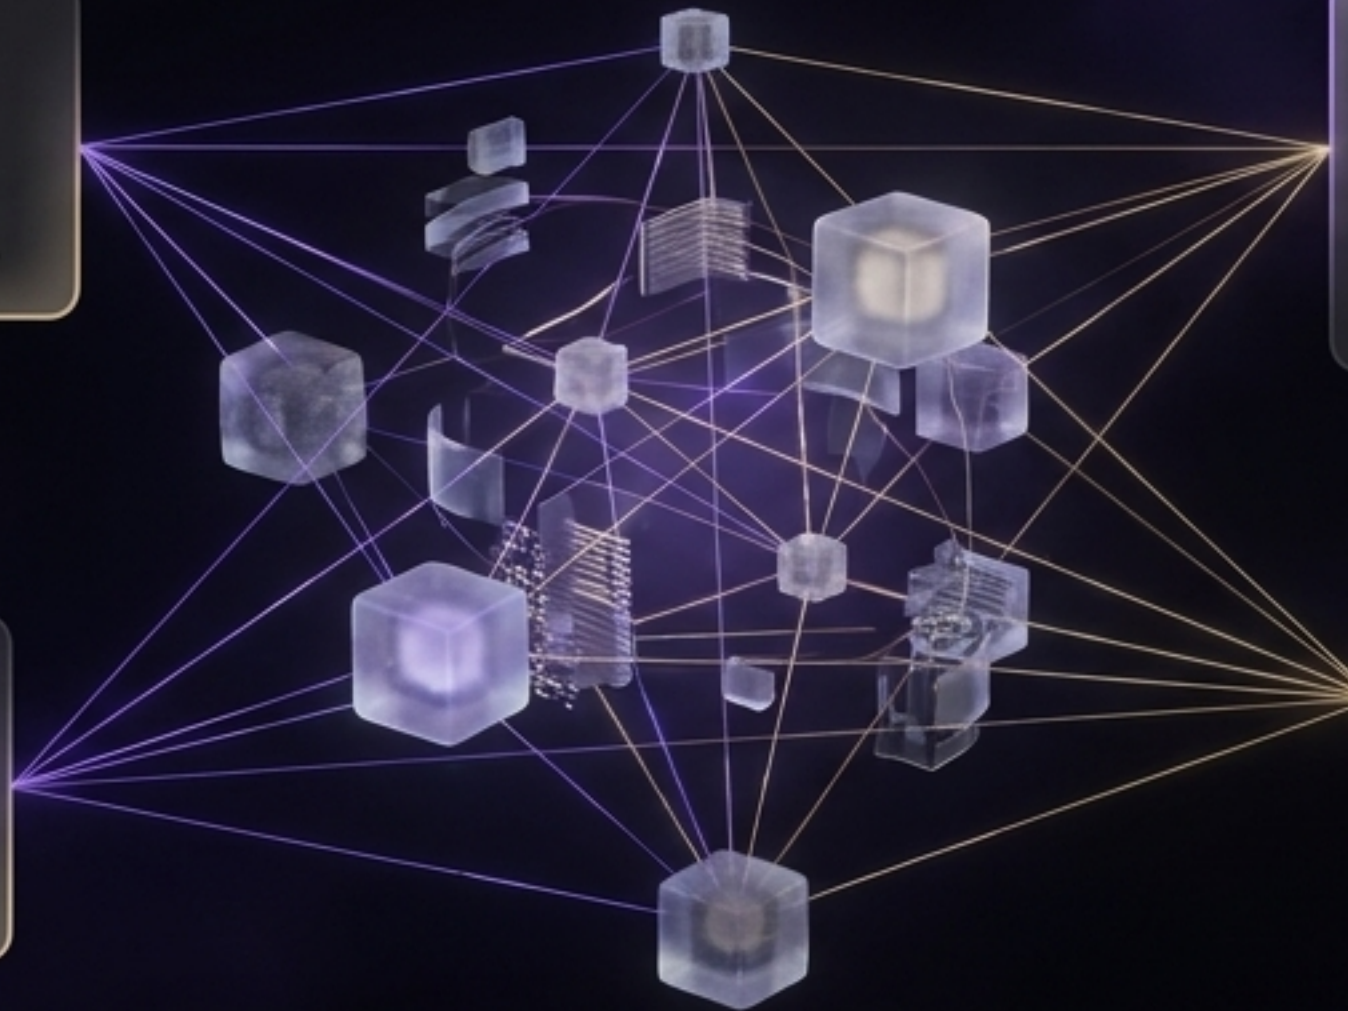

Demanding consent-safe boundaries before surrendering personal agency or raw data.

Readiness

Moving from confusion to a specific, structured next action.

Aesthetic & Market Affinity:

Aesop, Oura, Headspace (for its discipline, not its softness), premium boutique retreats.

Sequence of Trust: From Mirror to Marketplace

Step 1: The Grant

User receives

369

free Mirror tokens.

Step 2: The Opening Flow

Mirror structures the reflection, costing roughly

108

tokens.

Step 3: The Consent Boundary

User reviews the generated Seeker Map and explicitly approves what context moves forward.

**Consent
Seal**

Step 4: The Handoff

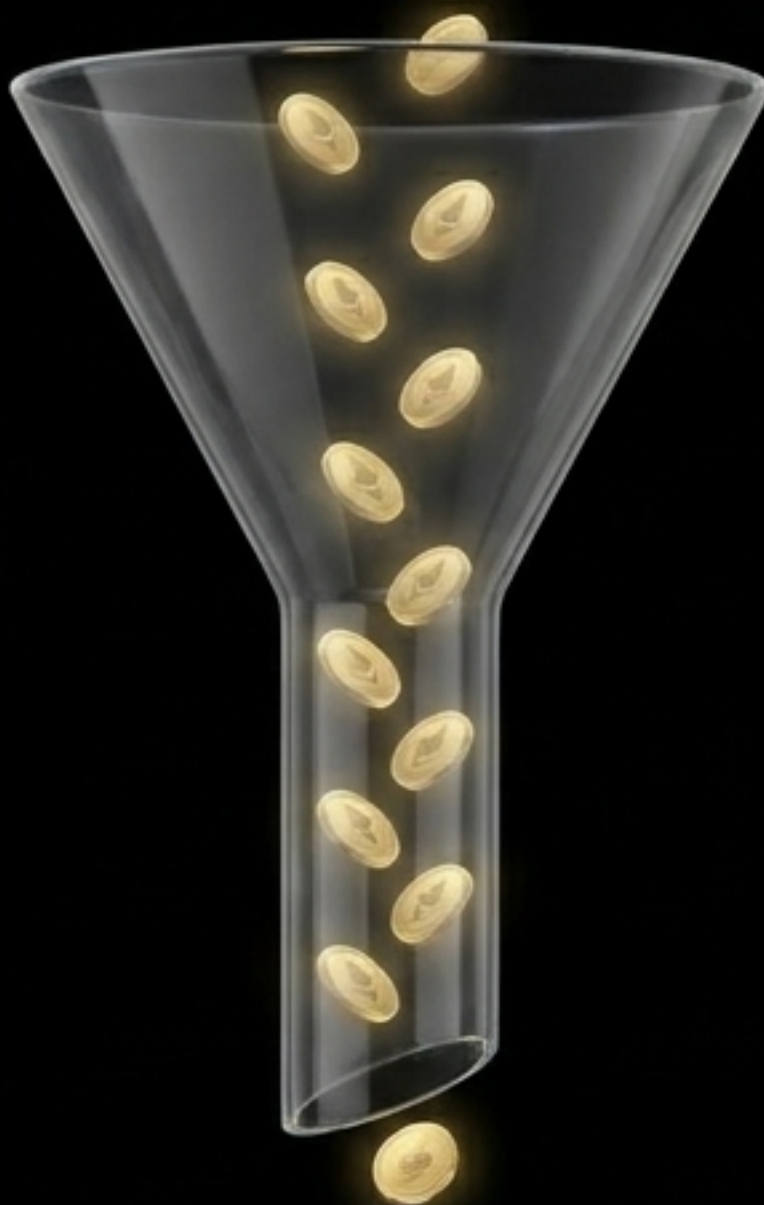

Context routes to a verified practitioner; user hits a local recharge anchor (e.g., **299** THB/INR) to continue.

The Competitive Moat: Context Over Supply

	Generic Directories	Spiritual Content Apps	Klear Karma
Discovery Trigger	Filters	Content	Mirror-led Paid Intent
Handoff Safety	Zero Context / Time & Date	N/A	Consent-Safe Seeker Map
Practitioner Value	Generic Lead Volume	Audience Monetization	High-Context Fit
Business Signal	Free Signups/Clicks	Subscription/Ads	Token Recharge Post-Reflection

The Economics of Intent: Token Revenue Mechanics

Token Flow Diagram

Acquisition →

369 free Mirror tokens granted to new users

Validation Cost →

~108 tokens consumed by the opening Mirror flow.

Paid Activation Threshold

User recharges at least 299 within 90 days.

Pricing Anchors

299, 599, 799, and 1099

Denominated strictly in local THB or INR, not FX equivalents.

Fulfillment Economics

Zero consultation commission in MVP/early growth to onboard premium supply.

10% revenue share on protocol-reviewed product commerce.

Controlled Validation: Thailand and India Beta

Thailand

Thailand: Targeting tourists and premium seekers in high-tier Thai islands.

India

India: Leveraging founder-networks with cultural permission for symbolic context and healer discovery.

Operational Parameters: Narrow, invite-led 100-user beta to ensure safe human handoffs.

Strategic Validation KPIs

1,000 paid-activated users 

200 repeat purchasers 

50 completed healer consultations 

Investor Milestone Target:
600,000 to 700,000 THB ARR

Brand Identity: The Reflective Steward

Signal
Lotus

Verbal Identity:

A grounded reflective strategist. Spiritually literate, careful with claims, commercially clear, consent-first, and calm under investor scrutiny. Never mystical for its own sake.

Visual Identity:

The Reflective Trust Field. Deep, premium app-native interfaces layered with specific geometries.

Metrics & Data: 108 Tokens

Reflect First. Choose Support Second.

The Promise: Klear Karma will not optimize for vanity signups. The primary proof point is paid activation through recharge, repeat token use, and completed practitioner handoff.

Next Steps: Join the invite-led beta for Thailand and India launch circles. Experience the 108-token opening flow before choosing practitioner support.
