

Klear Karma

Mirror-guided trust for seekers
and verified practitioners.

Category-First Browsing

Category: Meditation, Yoga, Reiki, Coaching ▾

Price: Low, Mid, High ▾

Availability: Morning, Afternoon, Evening ▾

Duration: 30m, 60m, 90m ▾

Location: Virtual, In-Person ▾

Marketplaces force category, price, and time selections before understanding the person.

Seekers are left guessing from generic profiles; practitioners receive cold, low-context leads.

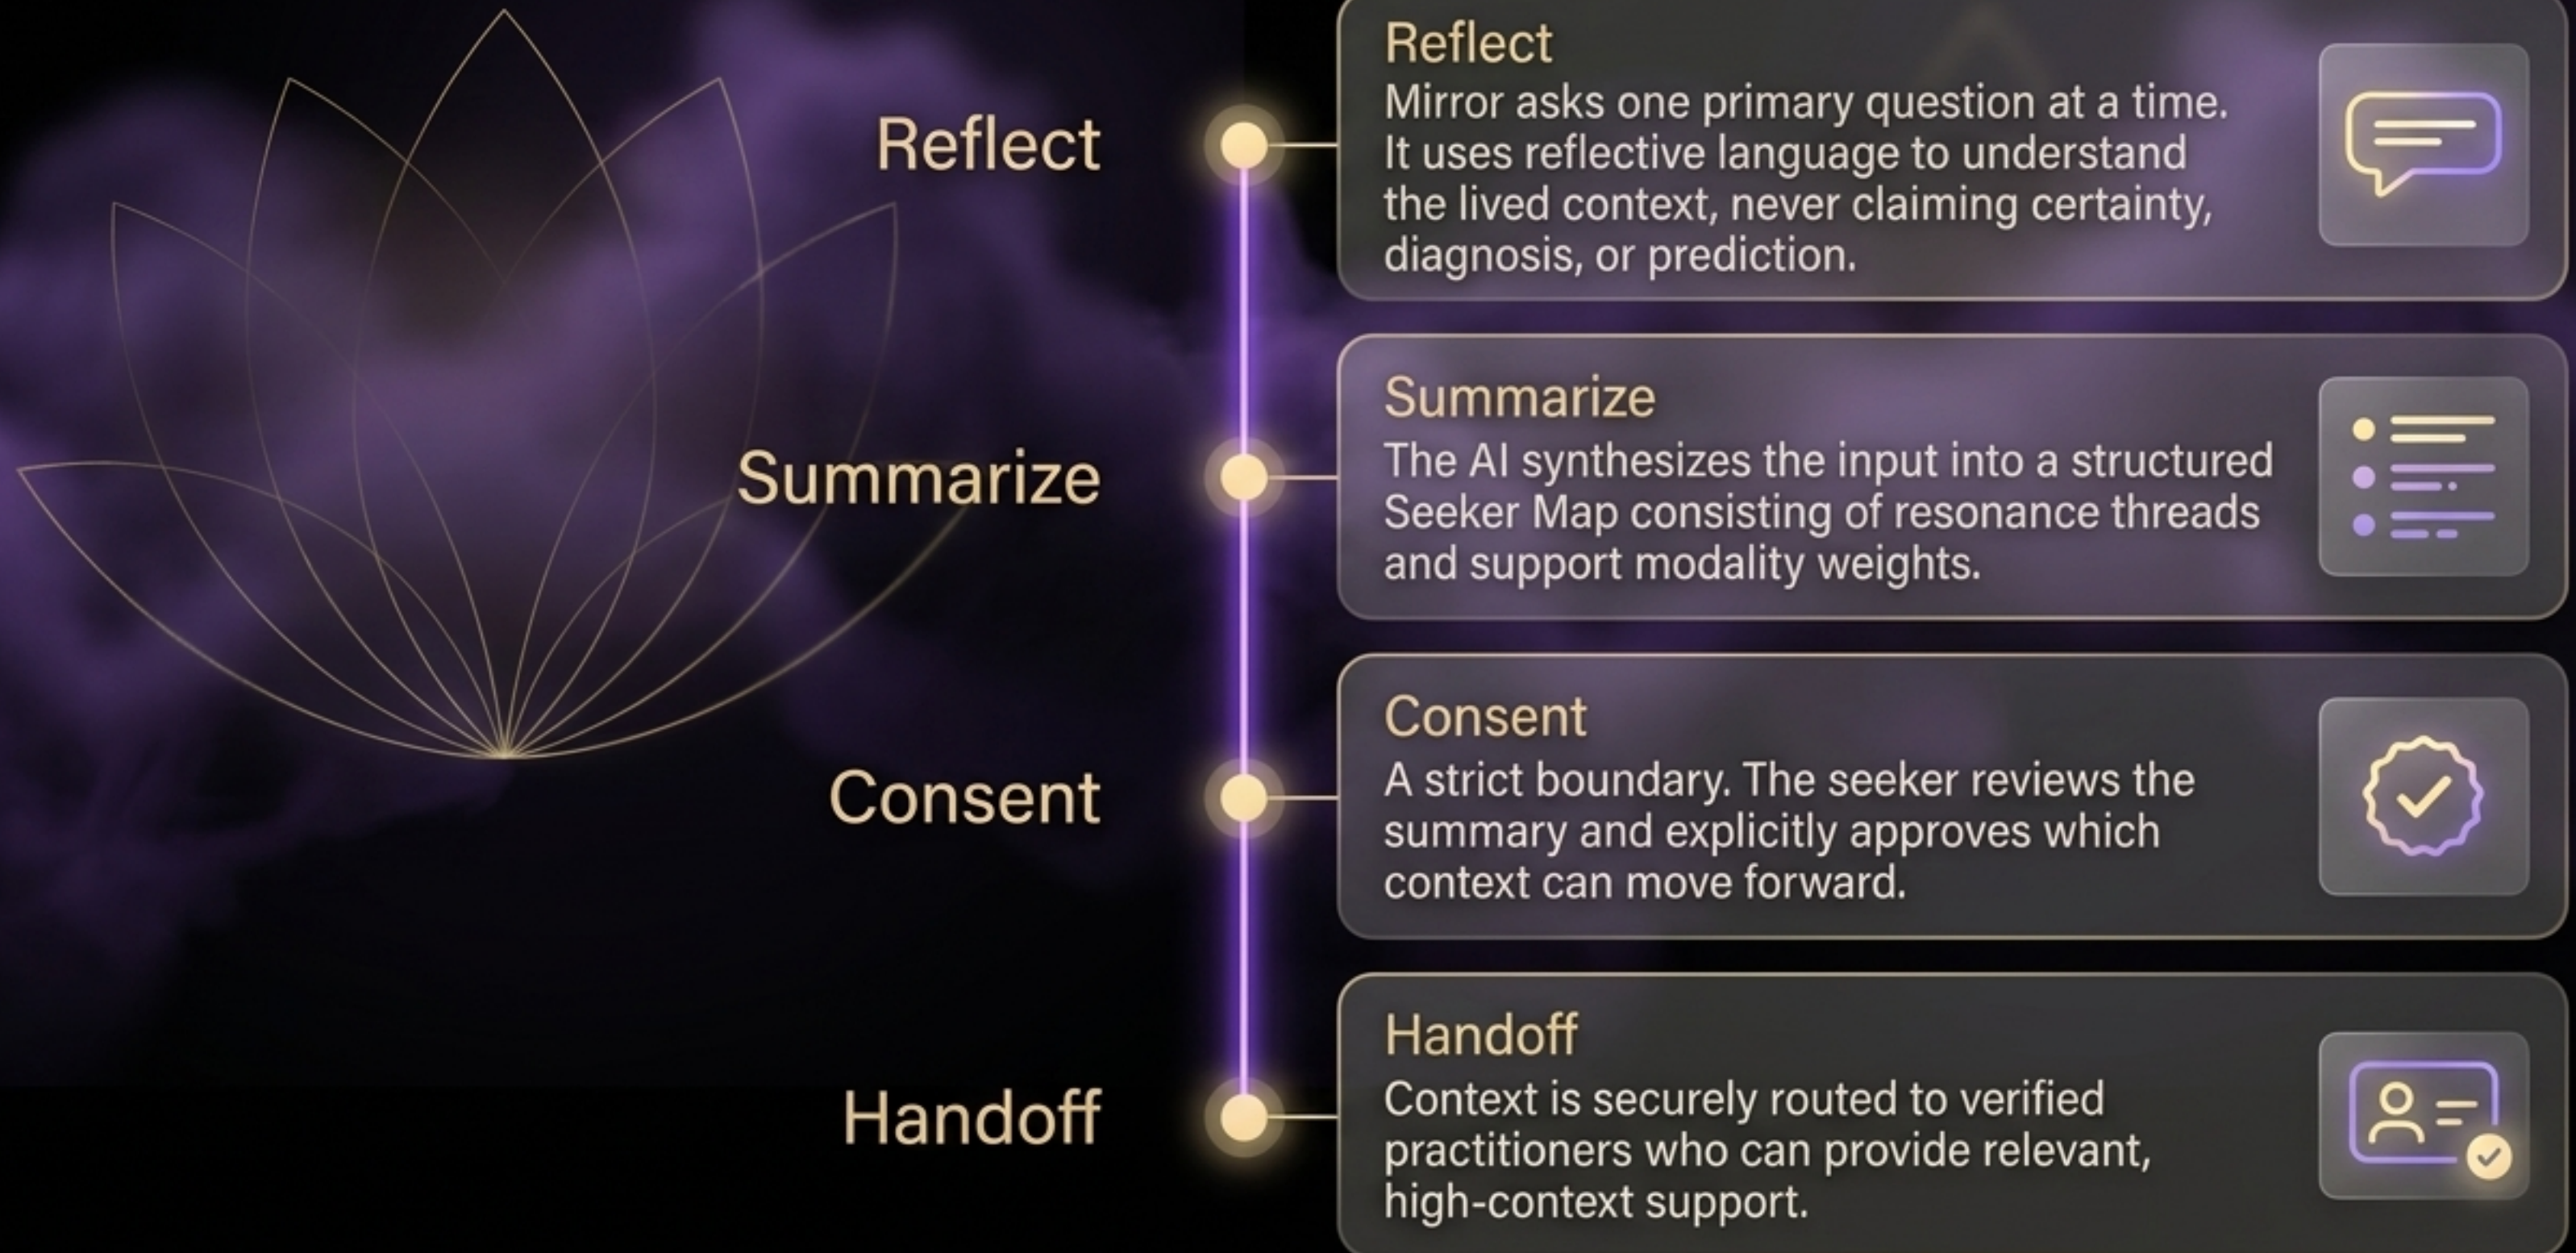

Context-First Reflection

What are you carrying today? |

Starts with what the seeker is carrying.
Forms a consent-safe context map before any marketplace browsing occurs.

Reflection happens before search.
Trust precedes commerce.

The Reflective Chamber: Context-Aware Journey

The Paid-Intent Engine

Mirror Token Economics

Converts pure reflection into measurable token intent. Gives the team a concrete paid-activation loop to validate instead of optimizing for free vanity signups.

Practitioner Trust Layer

Consent-Safe Handoff

Employs verified practitioner profiles and tiered session offers. Protects sensitive boundaries by ensuring raw reflections are never shared by default.

Protocol-Reviewed Commerce

Curated Contextual Offerings

Product listings are profile-scoped, token-staked, and manually founder-reviewed in beta. Prevents the platform from degrading into a generic ecommerce shop.

Generating the Seeker Map

Consent-Approved Fulfillment

Dimensions	Generic Directories	Content/Astrology Apps	Klear Karma
Discovery Mechanism	Filter by price, category, availability.	Passive scrolling & habit formation.	Mirror-led reflection & Seeker Mapping.
Handoff & Privacy	Public booking, zero prior context.	No human practitioner fulfillment.	Explicit consent-safe context boundaries.
Authority Claim	Medical or transactional.	Often overclaims certainty or prediction.	Symbolic context. Never a guru or clinician.
Primary Business Signal	Lead volume & booking commissions.	Monthly SaaS subscriptions.	Token recharge after meaningful utility.

369 Free Mirror Tokens
(Initial grant to eliminate onboarding friction)

~108 Tokens Deducted
(Cost of the opening Mirror/chart flow.
Proves engagement)

299 Local Anchor
(THB or INR)

Recharge only if
reflection creates value.

What is Paid Activation?

A user is considered "paid-activated" only when they recharge at least 299 within 90 days of signup or interaction.

Validating Trust over Traffic

We are not optimizing for mass downloads. The current beta milestone targets approx. 600k–700k THB ARR based on strict utility KPIs.

1,000

Paid-Activated Users
(Not free signups)

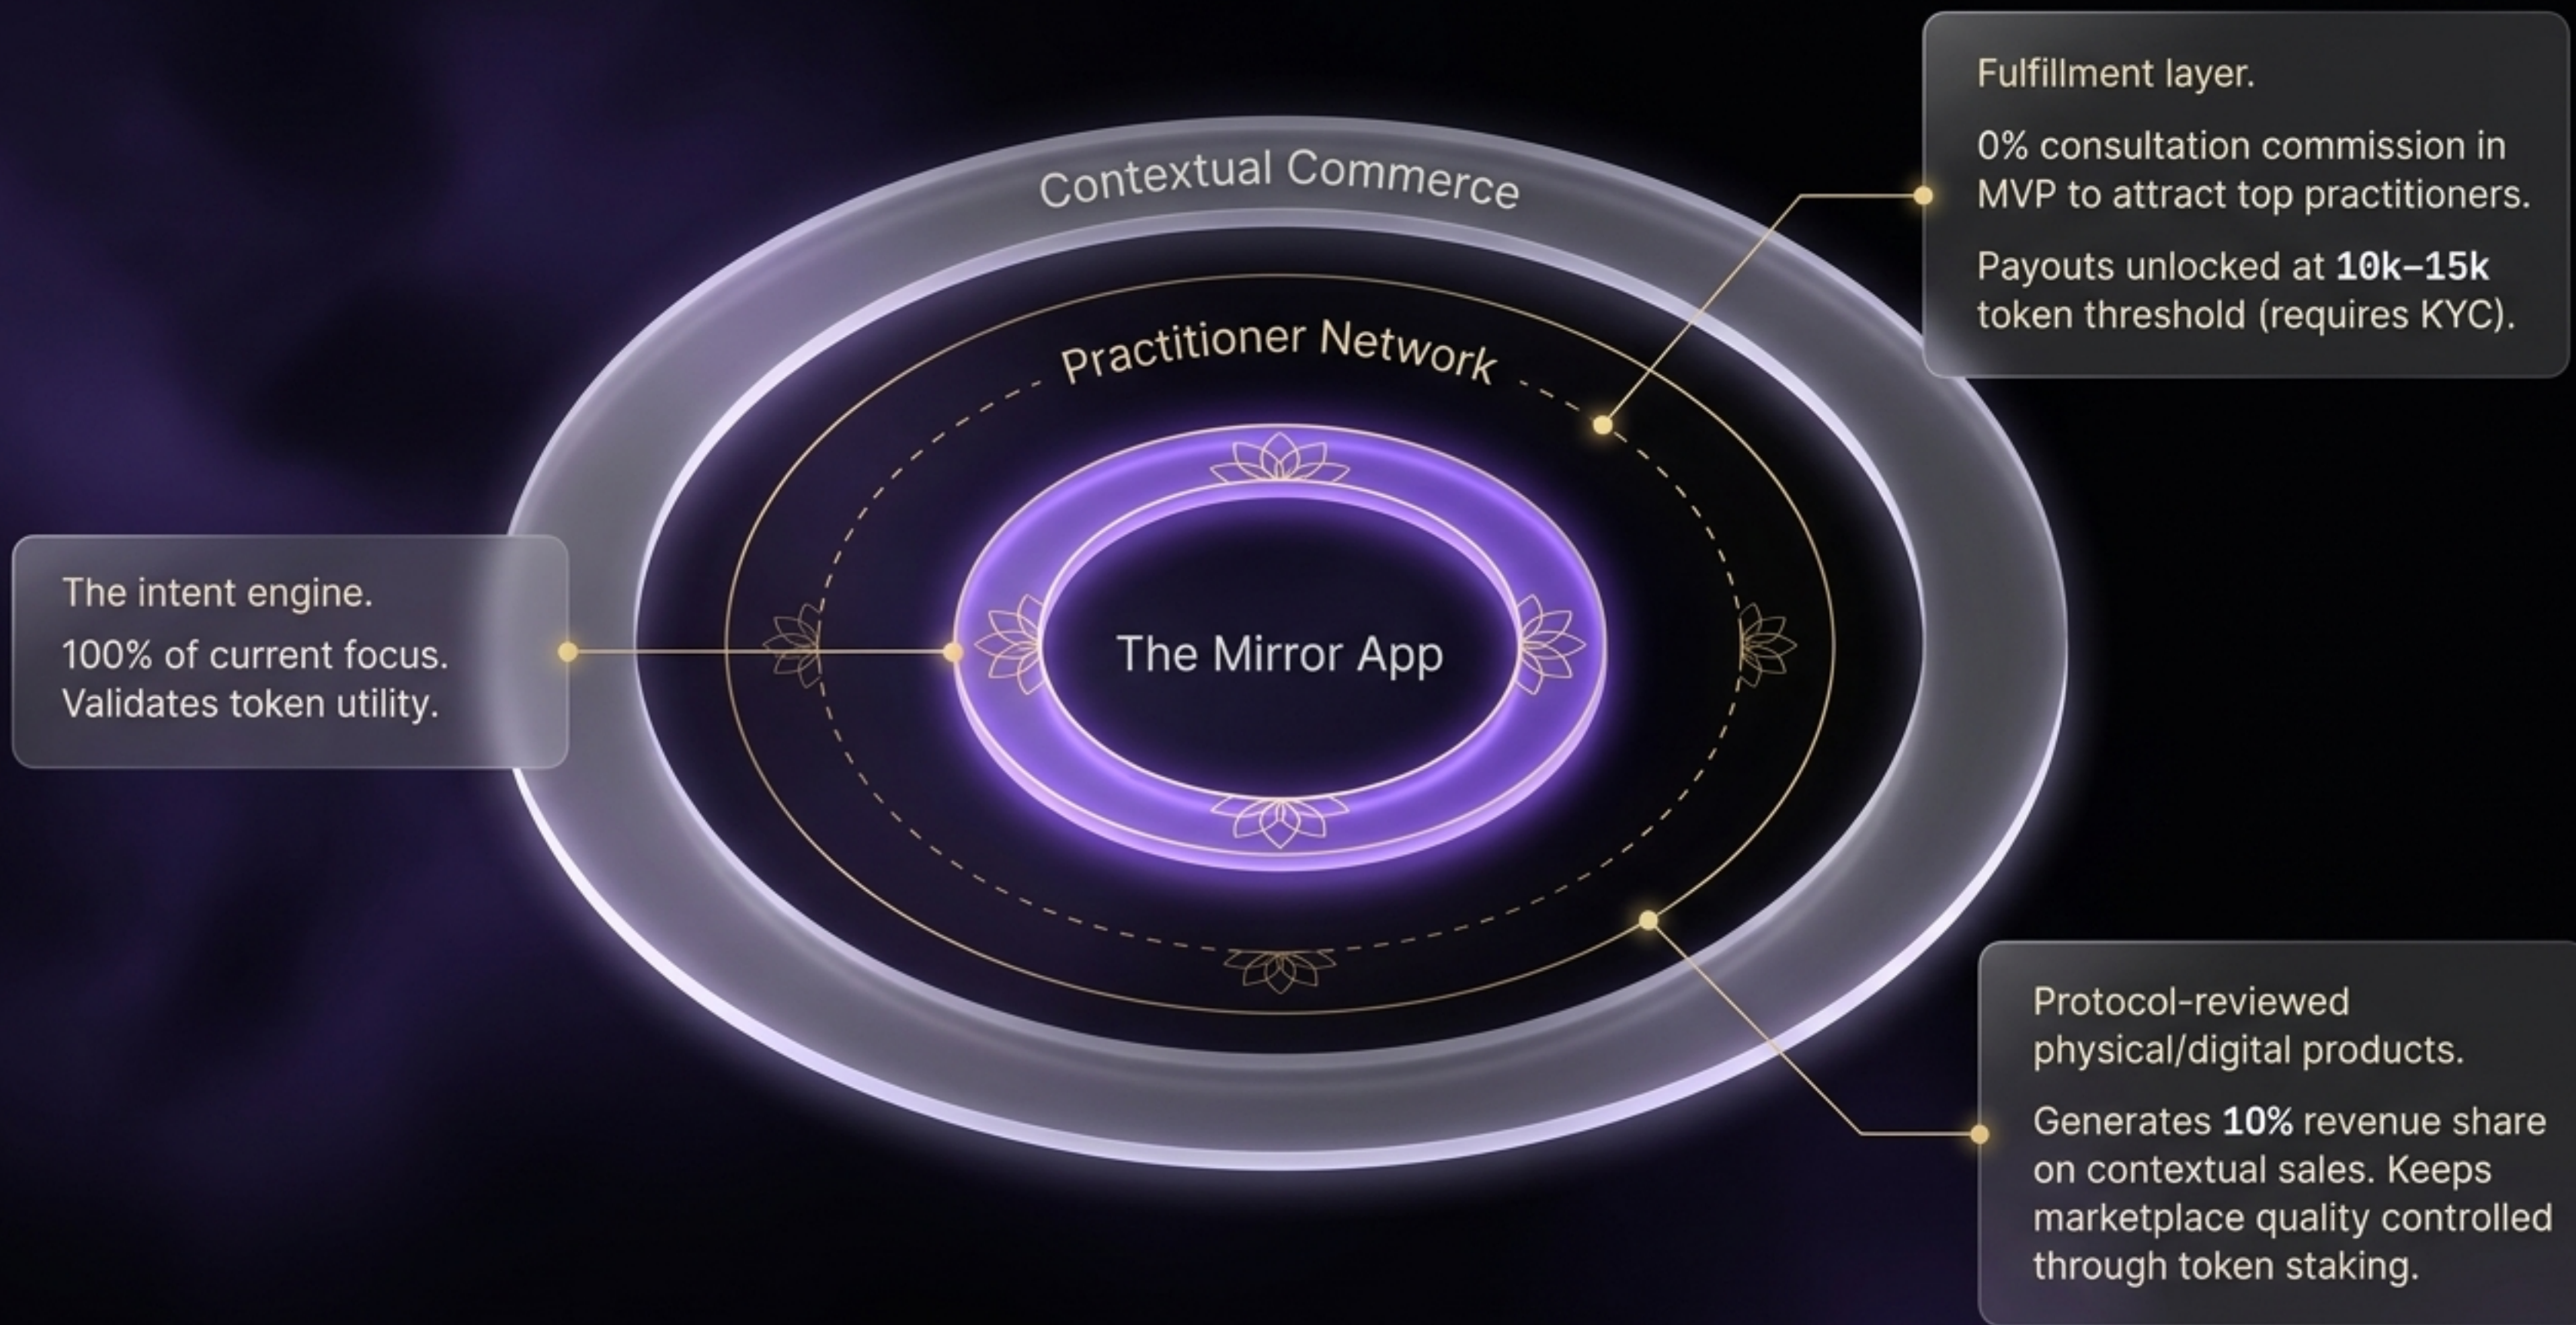

200

Repeat Token
Purchasers

50

Completed Healer
Consultations

These strategic milestones prove Mirror-to-Recharge conversion and AI-to-Human handoff rate before broad global scale.

The Invite-Led Launch

Klear Karma is validating intent precisely where spiritual wellness ecosystems and founder networks are strongest. **We are launching exclusively to premium Thai island circles and Indian founder networks.**

- ✓ Controlled beta qualification
- ✓ Founder-reviewed practitioner onboarding
- ✓ Focus on repeat token utility over vanity reach

Turn Reflection Into Trusted Support.
